INDEX TO VOLUME 28

A

Actinomycosis of heart simulating rheumatic fever, 683*

Activity, effect of artificial restriction of, on recovery of rats from experimental myocardial injury, 682*

Addison's disease, heart failure in, with myocardial changes of potassium deficiency, 127*

treatment of, congestive heart failure and electrocardiographic abnormalities resulting from excessive desoxycorticosterone acetate therapy in, 611

Adrenal-sympathetic syndrome, 265*

Adults, young, significance of electrocardiographic abnormalities in, 405*

Aged, heart failure in, 130*

Altitudes, high, observations on heart size of natives living at, 69

Altschule, M. D., and Zamcheck, N., 267*

Amadeo, José A., 699

Anderson, Norma, Tandowsky, R. M., and Vandeventer, J. K., 298

Aneurysm, aortic abdominal; rupture into jejunum preceded by occult blood in stool, 265*

sinus, of, with heart block, 262*

dissecting, producing coronary occlusion by dissection of coronary artery, 682*

leaking cerebral, coarctation of aorta, and double mitral A-V orifice, 406*

Aneurysmorrhaphy, Matas endotechnical simplicity of, 686*

Angina pectoris; I. Clinical aspects of pain in chest, 467*

exertional dyspnea, and syncope associated with, 689

rationale and results of roentgen treatment of adrenal glands in, 128*

rest, of; myocardial infarction indicated by angina pectoris of effort or by brief attacks of, with remarks on premonitory pain, 81

Anomaly, congenital, coarctation of aorta: clinical and roentgenologic analysis of thirteen cases, 24

double mitral A-V orifice, and leaking cerebral aneurysm, 406*

dextrocardia, unusual electrocardiogram in, 263*

Anomaly, congenital—Cont'd

peripheral blood flow and other observations in coarctation of aorta, 217

persistent, truncus arteriosus, 127*

rare case of congenital heart disease with interventricular septal defect, atretic pulmonary artery, dextroposition of aorta, bicuspid right atrioventricular valve and superimposed subacute vegetative endocarditis, 115

subaortic stenosis, 440

Anoxia, indirect measurement of mean venous oxygen tension during, 684*

Aorta, abdominal, aneurysm of; rupture into jejunum preceded by occult blood in stool, 265*

unusual conditions involving, 742

coarctation of; clinical and roentgenologic analysis of thirteen cases, 24

double mitral A-V orifice, and leaking cerebral aneurysm, 406*

dextroposition of, with interventricular septal defect, atretic pulmonary artery, bicuspid right atrioventricular valve, and superimposed subacute vegetative endocarditis, rare case of congenital heart disease, 115

peripheral blood flow and other observations in coarctation of, 217

surgical treatment of experimental coarctation of, 544*

Apoplexy, spontaneous renal, with resuscitation after cardiac arrest, 544*

Army Air Forces rheumatic fever control program, 683*

Arteries, irradiated small, foam cell plaques in intima of, 131*

large, further observations on surgery of, 268*

Arteriosclerosis, spontaneous, in chickens, 542*

Artery, coronary, differentiation of electrocardiographic changes produced in dog by prolonged temporary occlusion of, from those produced by postoperative pericarditis, 233

dissecting aneurysm producing coronary occlusion by dissection of, 682*

An asterisk (*) after a page number indicates the reference is an abstract and not an original article.

Artery, coronary—Cont'd
electrocardiographic changes in impending infarction and ischemia-injury pattern produced in dog by total and subtotal occlusion of, 54
thrombosis, report of case of survival for nineteen years after; life expectancy after attack of myocardial infarction, 406*
ventricular tachycardia as a therapeutic problem in, 544*
disease of lower extremities, Frei reaction in, 131*
pulmonary atretic, interventricular septal defect, dextroposition of aorta, bicuspid right atrioventricular valve and superimposed subacute vegetative endocarditis with, rare case of congenital heart disease, 115
right and left coronary, changes in, inflow with cardiac nerve stimulation, 261*
ruptured popliteal, repair of, with note on heparin therapy after arterial suture, 409*
Arthritis, rheumatoid, heart in, 1
Ash, R., Rubin, M. I., and Rapoport, M., 126*
Aspirin hypersensitivity, nodal rhythm and bundle branch following, 409*
Asthenia, neurocirculatory, electrocardiographic studies in, 574
relation of to Graves' disease, 177
Atropine, action of, on minute volume of heart, 268*
Auerbach, O., and Stemmerman, M. G., 130*
Auricle failure, acute left, 820*
infarction of, 287
left, case of myxoma of, 408*
Autonomic nervous system imbalance, influence of, on human electrocardiogram, 549
Avery, Noyes L., Lyons, R. H., and Jacobson, S. D., 247
Axis deviation and bundle branch block, Q, deflection of electrocardiogram in, 271
marked left, of electrocardiogram, significance of, 681*
ventricular hypertrophy and, interpretation of, 621
electric, character of precordial ventricular complex in electrocardiogram tracings with deviation of, to right, 126*
momentary atrial electrical; I. Normal sinus rhythm, 794

Blackman, S. S., Jr., Thomas, C. B., and Howard, J. E., 825
Bladder, urinary, arterial blood pressure, kidneys and livers of growing dogs, effect of testosterone propionate on, 825*
Blalock, A., and Park, E. A., 544*
Blevins, A., Mac Neal, W. J., and Poindexter, C. A., 669
Blood concentration of, constancy of, and urinary output, studies on, in thiocyanate therapy of hypertension, 411
electrocardiographic changes after acute loss of, 539*
flow, cutaneous temperature and, blood flow, peripheral resistance, and vascular tonus, with observations on relationship between, 402*
effect of external constriction of blood vessel on, 125*
peripheral and other observations in coaretation of aorta, 217
resistance, and vascular tonus, with observations on relationship between blood flow and cutaneous temperature, 402*
pressure arterial, in rats, effect of chronic lead poisoning on, 295
kidneys, urinary bladder and livers of growing dogs, effect of testosterone propionate on, 825*
measurements of, in arm and leg; comparison of sphygmomanometric and direct intra-arterial pressures, with special attention to their relationship in aortic regurgitation, 476
direct and indirect, measurements in rats, comparison of, 680*
effect on, of normal persons and hypertensive patients of glyceryl trinitrate, sodium nitrite, erythrol tetrani-

Blood pressure—Cont'd
trate, and mannitol hexanitrate, 601
in arm and thigh of man; I. A study of averages, variations, and differences between thigh and arm, 763
II. Hydrostatic influences, 773
III. Effect of venous engorgement, 777
IV. Blood pressure in exercised extremities, 782
of dog, effect of renal vein occlusion on, 786
physical and physiologic analysis and new procedure for estimation of; indirect sphygmomanometry, 822*
venous, influence of collapsibility of veins on, including a new procedure for measuring tissue pressure, 267*
vessel, anomaly, congenital, coarctation of aorta; clinical and roentgenologic analysis of thirteen cases, 24
effect of external constriction of, on blood flow, 125*
test for vascular tone in human beings and its application to study of vascular diseases with special reference to etiology and prevention of thrombophlebitis, 265*
viscosity of, relationship of, to intensity of heart murmurs, 568

Burwell, C. Sidney, and Kennedy, J. A., 133
Butterworth, J. Scott, and Poindexter, C. A., 149

C

Campbell, A. M. G., Gibson, P. C., and Lane, C. R. T., 126*
Campbell, M., 404*
Capillary, surface, effect of drugs on, of Macaca rhesus, 46
Cardiovascular system disease, abuse of rest as therapeutic measure for patients with, 686*
Carotene, level of, and vitamin A in plasma of rheumatic subjects, 129*
Cassels, D., and Steiner, P., 129*
Chasis, Herbert, and Goldring, W., 545 (B. rev.)
Chest, clinical aspects of pain in; I. Angina pectoris, 407*
Child, cardiac, in a special school, 491
Stokes-Adams attacks in, 404*
Childhood, rheumatic infection in; a survey from Children's Hospital, Melbourne, 682*
Children, inactive rheumatic fever with, prophylactic use of sulfanilamide in, 407*
myocarditis in, 263*
Circulation, augmentation of, with elevation of left ventricular pressure and observations on mechanism for increased coronary inflow with increased cardiac load, 538*
cardiac coronary, suggestion for improving structure of, without surgical intervention, 699
collateral, dynamics of, 124*
coronary increased inflow of, with increased cardiac load, augmentation of left coronary inflow with elevation of left ventricular pressure and observation on mechanism for, 538*
failure due to vitamin B deficiency, 267*
fetal, changes in at birth, 540*
measurements of, in patient with multiple arteriovenous connections, 133
peripheral collapse of, in toxemia of pregnancy, 541*
renal, in shock, 543*
respiration and, in man, effects of pleural effusion on, 267*
test of cardiac function and coronary insufficiency; electrocardiogram and "two-step" exercise, 266*
Cirrhosis, congestive, or "cardiac"; pathologic and clinical aspects, 125*

Decherd, George M., and Herrmann, G. R., 457
—, and Ruskin, A., 794
Dehydration, effect of, produced by mercupurin, on plasma volume of normal persons, 247
Deitrick, John E., Ferguson, F. C., and Kobilak, R. E., 445
Desoxycorticosterone acetate therapy, excessive, in treatment of Addison's disease, congestive heart failure and electrocardiographic abnormalities resulting from, 611
de Takats, G., 824*
Dextrocardia, unusual electrocardiogram in, 263*
Dicumarol, clinical experience with, 321
Digitalis, effects of (IV); Studies on unipolar leads, 370
Diphtheria, auricular fibrillation late in course of, 126*
heart block in, 539*
Disease, hypertensive, and hypertension, 545 (B. rev.)
Doane, Joseph C., and Skversky, N. J., 816
Dodge, K. G., Baldwin, J. S., and Weber, M. W., 407*
Donovan, G. E., 681*
Dressler, William, 81
Drugs, cardiac, various so-called, an electrocardiographic and clinical study of, 298
Ducey, E. F., and Sherman, C. F., 685*
Ductus arteriosus, patent, complete surgical division of, 540*
Duncan, C. N., and Faulkner, J. M., 681*
Duras, P. F., 262*
Dyspnea, exertional, and angina pectoris, syncope associated with, 689

E

Effusion, pleural, effects of, on respiration and circulation in man, 267*
Electrocardiogram abnormalities and congestive heart failure resulting from excessive desoxycorticosterone acetate therapy in treatment of Addison's disease, 611
significance of, in young adults, 405*
changes after acute loss of blood, 539*
differentiation of, produced in dog by prolonged temporary occlusion of coronary artery from those produced by postoperative pericarditis, 233
following artificial hyperpyrexia, 681*
impending infarction in, and ischemia-injury pattern produced in dog by total and subtotal occlusion of a coronary artery, 54
simulating those of acute myocardial infarction in case of perforated gastric ulcer, 533
clinical study of various so-called cardiac drugs and, 298
diagnosis and location of infarct by (III); Studies in acute myocardial infarction, 406*
effects of emetine on, 752
further observations on deep Q_3 of, 199
human, influence of autonomic imbalance on, 549
interpretation of axis deviation and ventricular hypertrophy, 621
Q_1 deflection of, in bundle branch block and axis deviation, 271
significance of marked left axis deviation of, 681*
studies in neurocirculatory asthenia, 574
study of lateral infarction proved at autopsy, 39
syndrome, on mechanism of, of short P-R interval with prolonged QRS complex, 311

Electrocardiogram—Cont'd
tracings with deviation of electric axis to right, character of precordial ventricular complex in, 126*
"two-step" exercise and; test of cardiac function and coronary insufficiency, 266*
unusual, in dextrocardia, 263*
variations in, in acute glomerulonephritis, 126*
Electrocardiography, continuous recording, 98
Emetine, effects of, on electrocardiogram, 752
Endocarditis lenta, clinical arrest of, by penicillin, 669
mycotic, report of case with necropsy; review of literature, 129*
subacute, ineffective, treatment of, with heparin and chemotherapy, 544*
vegetative, superimposed, with interventricular septal defect, atretic pulmonary artery, dextroposition of aorta, bicuspid right atrioventricular valve, rare case of congenital heart disease, 115
Erratum, 687
Erythrol tetranitrate, glyceryl trinitrate, sodium nitrite, and mannitol hexanitrate, effect on blood pressure of normal persons and hypertensive patients of, 601
Evans, W., 127,* 409*
Evans, Willis F., Haskill, H. S., and Stewart, H. J., 217
Exercise, maximal and submaximal, some properties of, with reference to physiologic variation and measurement of exercise tolerance, 824*

  murmurs, apical sounds and, in aortic regurgitation, 156
    relationship of blood viscosity to intensity of, 568
  myotonia, atropica, in, 409*
  nodal rhythm, and bundle branch following aspirin hypersensitivity, 409*
  observations on size of, of natives living at high altitudes, 69
  output and plasma volume, changes in, following intravenous injection of gelatin, serum, and physiologic saline solution, 680*

Heart output—Cont'd
in man by direct Fick method, 403*
rate, alterations in form of T waves with changes in, 332
reciprocal beating initiated by ventricular premature systoles, 261*
rheumatoid arthritis in, 1
sounds, apical, and murmurs in aortic regurgitation, 156
first, and auricular fibrillation, 405*
physiologic third, observations on mechanism of, 661
synchronous, sound recording, 404*
systoles, interpolated ventricular premature of, an unusual effect of, 167
test of cardiac function and coronary insufficiency; electrocardiogram and "two-step" exercise, 266*
triple, rhythm of, 127*
value of roentgenologic examination of, 621
ventricular premature systoles, reciprocal beating initiated by, 261*
